WORK EXPERIENCE

2020

Frontend developer

During my 5 years at GameAddik, I gained valuable experience in both frontend development and design, working with a great team. I also explored SEO analytics to optimize website performance.

Key Responsibilities :

- **Frontend Development:** Designed, developed, and maintained robust systems using Vue, Nuxt, TailwindCSS, Vite.js, and Node.js.
- **UI/UX:** Created, developed, and tested user interfaces for web and mobile applications.
- **Reusable Code:** Built reusable components and libraries for scalable development.
- **Business & User Needs:** Accurately translated requirements into functional frontend solutions.
- **System Integration:** Collaborated with system architects to ensure smooth backend integration.
- **Code Quality:** Participated in code reviews, resolved technical issues, and maintained high standards.
- **WordPress & SEO:** Developed innovative websites using WordPress and implemented SEO strategies to enhance visibility.
- **Creative Design:** Contributed to the design of various projects, blending technology and aesthetics.

ABOUT ME

Passionate frontend developer with 5 years of experience at GameAddik, where I honed my skills in both development and design. I thrive at the intersection of creativity and technology, seamlessly navigating between coding and UI/UX. Experienced with CMS platforms like WordPress and Webflow, as well as SEO analytics, I build visually engaging and high-performing digital experiences.

2019
2018

Designer Graphique

During this period, I worked as a freelance graphic designer for various clients in Tunisia and Canada, which allowed me to experience different design approaches across cultures.

Key Responsibilities :

- **Branding & Identity:** Designed logos and brand identities for diverse industries.
- **Print & Digital Media:** Created posters, brochures, packaging, covers, and promotional materials.
- **UI/UX & Mockups:** Developed mockups and visual concepts for various projects.
